

SPL6Q-LRSUB SOUND BAR

6.5" 2.1 FORMAT SOUND BAR - 4" DEPTH

Size	8.125 h x Custom Sized w* x 4 d (in) 206 h x Custom Sized w* x 102 d (mm) * Absolute Minimum Width: 40" (1016mm)
Freq Response	40Hz-40kHz±3dB
Impedance	4/8 ohms (Config. Dependent)
Sensitivity	94dB 2.83V /1m
Power req.	L/R 25-200W/Channel Sub: 50-200W
Woofer*	6.5" (133mm) Aluminum
Tweeter*	0.75" (19mm) Aluminum
Finishes	STUDIOBK, STBK, GLBK, DKTI, LITI, MRSLV
Brackets	BRK.SPL6.UN PL-B-CUSTOM (Ordered Separately)

6.5" (165mm) Aluminum Cone Woofers

0.75" (19mm) Aluminum Dome Tweeters in Quad-Arrays

The SPL6Q-LRSUB raises the bar in sound output and wide frequency response. James Loudspeaker has taken their proprietary quad-tweeter technology from the BE reference series and scaled it down to a compact array of four 0.75" (19mm) aluminum dome tweeters to provide a wide dispersion angle. When combined with James' high output 6.5" (165mm) woofers, the SPL6Q-LRSUB has a remarkable 94dB sensitivity with bass down below 40Hz, delivering high efficiency, low distortion, and crisp clear audiophile sound. Designed as a 2.1 format system, left and right channel, plus subwoofer the SPL6Q-LRSUB is perfect for any stereo system application.

The cabinet design features all aircraft grade aluminum for strength, sonic performance, and suitability for outdoor/marine applications. Complete with a custom fit and colored stainless steel perforated grille, this SoundBar mounts directly to any TV for a seamless presentation or wall-mounted using available brackets. James custom fits each SoundBar to fit your TV perfectly to seamlessly integrate this speaker into any entertainment system, delivering a subdued visual effect, designed to be as unobtrusive as possible. Also available for wall mounting or configurable for other custom applications, this SoundBar combines high quality audio with elegant design for the perfect home entertainment solution.

Brackets ordered separately. For outdoor/marine applications, order the SPL6Q-LRSUB-M.
