SURFACE MOUNT | IPORTPRODUCTS.COM

## ELEGANTLY MOUNT IPAD ON ANY SURFACE.

IPORT Surface Mount is the most elegant way to mount iPad on a wall or solid surface. Surface Mount allows access to the iPad power button, microphones and speakers. iPad is contained in a minimalist aluminum bezel and stays protected by engaging locking components in the bezel as well as on the surface.

By utilizing IPORT's PoE and a standard CAT cable, Surface Mount can be up to 300 ft. from a power source or can be hard-wired to a network employing Apple's USB to Ethernet.

Available in black or white finishes, Surface Mount is the easiest way to install iPad on any surface while ensuring iPad blends into your space.

## THE SYSTEM

IPORT Surface Mount was derived from a simple goal: Install iPad on any wall or solid surface, and make it look great.

The bezel enclosure is comprised of precision-machined aluminum and is minimally designed to virtually disappear around iPad and blend in with the design of your space.

Combined with our PoE+ charging platform and security locking features, Surface Mount is the ultimate solution to mount iPad in any home or commercial space.
